Massimo Castagna

After his architectural studies concluded in 1984 at the Polytechnic University of Milan, Massimo Castagna, a determined architectural mind, took a very short step towards starting of his professional career. In 1986, he founded the studio AD Architettura, which still today follows important projects for international and historical design brands.

In the world of architecture, his name was legitimized soon after with high caliber projects including the “Pyramid” laboratory designed for the scientific committee Everest-K2-CNR and realized for the National Council of Research. Installed in 1991, it is still operational in Nepal at a height of 5050 meters. The biggest collaborations and continued successes have also brought forth

Massimo Castagna’s strong identity in the world of design. He is artistic director of some of the most important brands of the interior design sector and the products that he creates are always recognizable, with their strong and decisive features and passionate search to achieve new moods and sensations that distinguish his original work.

Beyond their visual appeal, Massimo Castagna’s signature architecture, use of space, and products evoke many emotions.

Among others, he has collaborated with Acerbis International, Ceccotti Collezioni, Exteta, Gallotti&Radice, Giorgetti, Henge, knIndustrie, Minotti poltrone e divani, Rossana Cucine.

Panarea Collection

Harmonic essence

Regal, with linear shapes, Panarea Collection dominates every outdoor environment with refined perfection. The high quality fabrics and Sapelli mahogany sculptural finishes create a harmonious balance of meticulously studied details, to amaze as every glance.

VOLUMES

DELIGHTFUL OPPOSITIONS

Linear design and generous volumes: the paddings covered with refined fabrics, totally waterproof, combine practicality and elegance, to give maximum comfort and a unique tactile pleasure.

ESSENCE

REFINED DETAILS

The choice of a harmonious palette, with delicate nuances, alternates with meticulous inserts in fine saddle leather, to create an irresistible melting pot of materials that define excellent finishes.

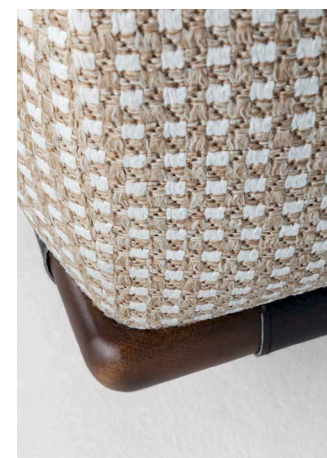

The interweaving of the upholstery, in pastel shades, creates tactile and visual games to give a unique sensory experience.

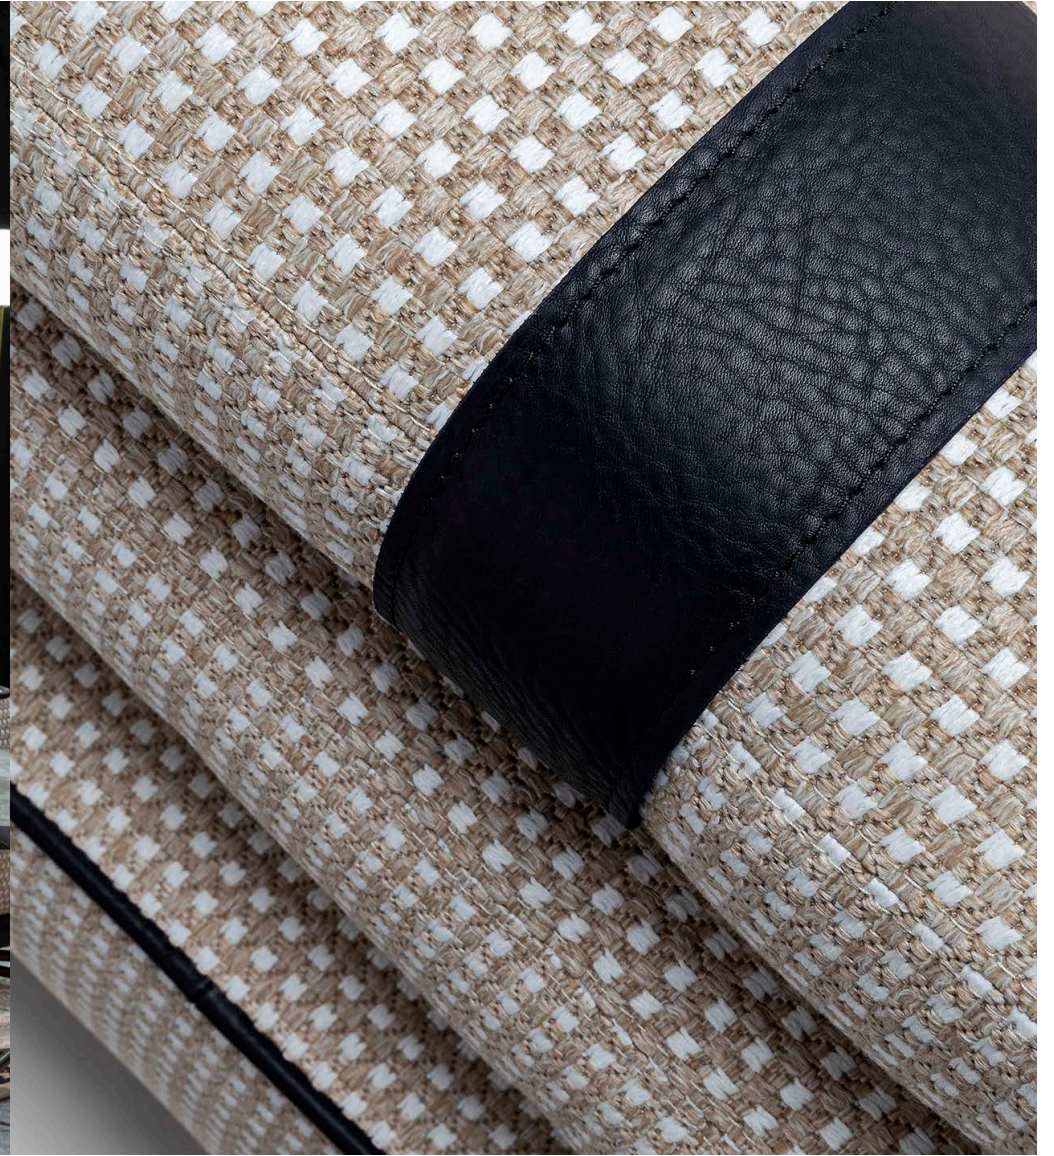

STRUCTURE

VALUABLE INSERTS

Each piece of Panarea Collection is designed to create infinite design games and customizations, adapting to every need of space and comfort. The padded sections rest on a Sapelli mahogany structure with Barrique finish. The mahogany feet have a steel insert. The Sapelli mahogany structure, enriched with stainless steel inserts, gives an elegant functionality, in harmony with any landscape.

Panarea Coffee Table

Impact vision

Panarea Coffee Table is the perfect solution for outdoor breaks.
The sophisticated range of accessories allows you to customize the piece
and put your signature style in the most exclusive environments.

design by Massimo Castagna

ACCESSORIES OPTIONAL OF TASTE

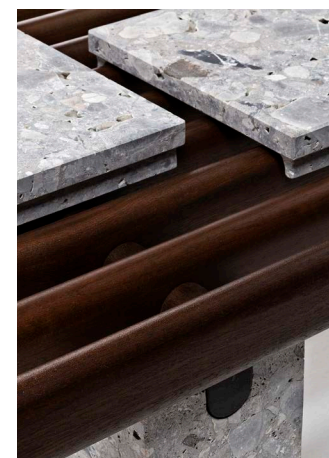

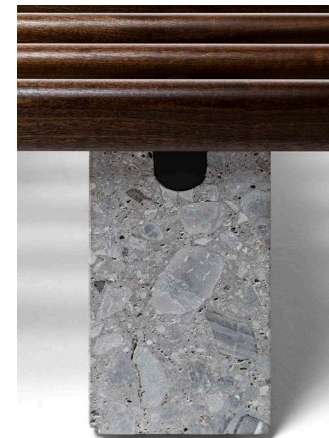

Available in Leaf Rust, Arabesco Orobianco Red, Steven Black, Olimpo Striato, Ostuni Travertine and Ceppo Stone finishes, the marble tiles become an original tray. The cushions, available in fabric or leather, are interchangeable to offer maximum functionality and transform to meet every style requirement.

NATURAL VALUE MATERIALS

From the Sapelli mahogany of the top, to the precious marble of the supporting bases, the materials are chosen with the most extreme care. The structure of Panarea Coffee Table is available in three tray sizes in different colour finishes: a detail born from nature and made precious by craftsmanship.

DYNAMISM FUNCTIONALITY

Pleasant moments of relaxation or short refreshment breaks, Panarea Coffee Table welcomes every wellness need thanks to its versatility. Dynamism and practicality are the characteristics that define it, making it unique.

Materials Highlights

VEGAN NABUK

A NEW PHILOSOPHY

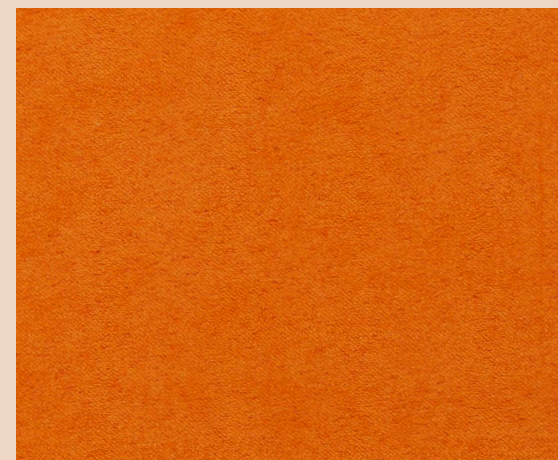

Vegan nabuk is an excellent alternative to animal leather.

As vegan it is obtained from recycled sources.

Vegan leather is a cruelty free, natural, ecological and fully recyclable product.

The touch is identical to that of natural leather and is particularly resistant to color variations caused by UV rays.

During the processing phases it undergoes further treatments that make it hydro repellent, this makes it a garment treated to facilitate the flow of water on its surface.

Composition: 100% PL
Weight paired: 420 gr
Weight not paired: 415 gr
Animal Free
Recyclable
Treatment: Water repellent,
stain removable, fire resistant

Products Updates

LEVANTE SOFA WITH NEW CORD

WEAVING ART NEW CORD

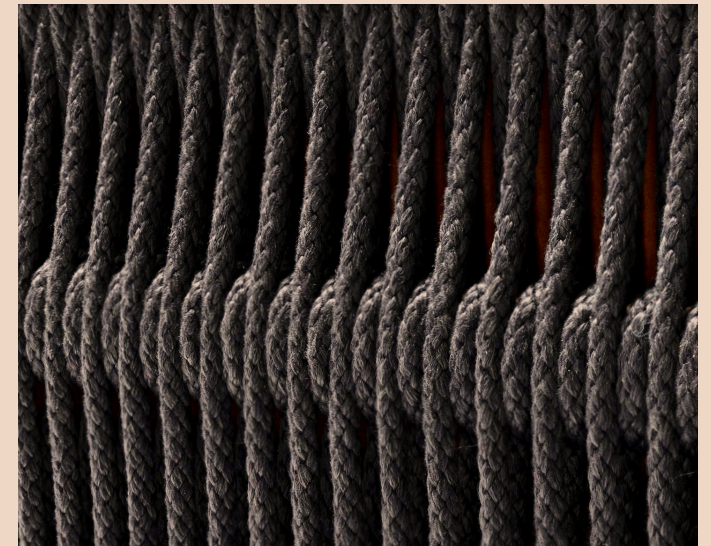

A mahogany structure evokes the traditional artisan loom, and like a canvas, the new cord, is handwoven on it. This material is available in two colors and composed of polyolefin fiber, resistant to UV rays and weathering, making it perfect for the outdoors.

SEATING SYSTEM

Lightness and softness are the distinctive features of the Levante Sofa, an upholstered structural piece with mahogany legs that facilitate movement and the creation of new environmental compositions. The backrest system and the side elements define its identity and personalization.

MODULARITY MODULES

The Levante Sofa modules were designed for two depths to adapt to any space and create unique landscapes. Dismantled and reconfigured, it continuously transforms functionality and aesthetics based on the position of the modules, frames, seats, backrests, and side elements.

Jungle Collection

Call of nature

The essence of its design lies in the grain of the chosen materials. Jungle Collection gives life to a series of furnishing elements structured according to the rules of nature: dynamism, functionality and harmony.

design by Massimo Castagna

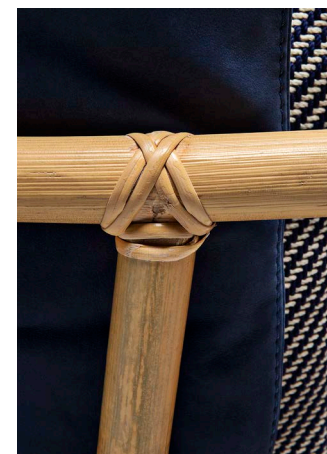

IDENTITY EXOTIC ECHO

The reference to distant traditions is part of the DNA of Jungle Collection. Ethnic references, in synergy with the choice of unexpected elements, are the lowest common denominator of a design that surprises at first sight.

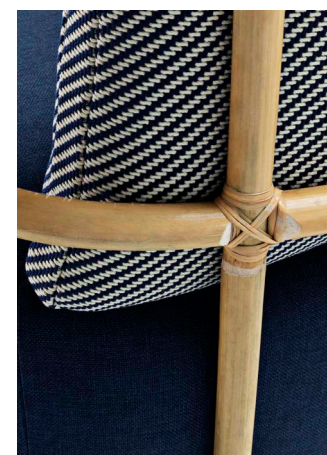

STRUCTURE LANDSCAPE IN THE MIDDLE

The alternation of solids and voids, wisely modulated, becomes the key element of Jungle Collection. The dynamic reed weaves allow a wide vision of the landscape, focusing attention on details.

IMPACT DELICATE PROFILES

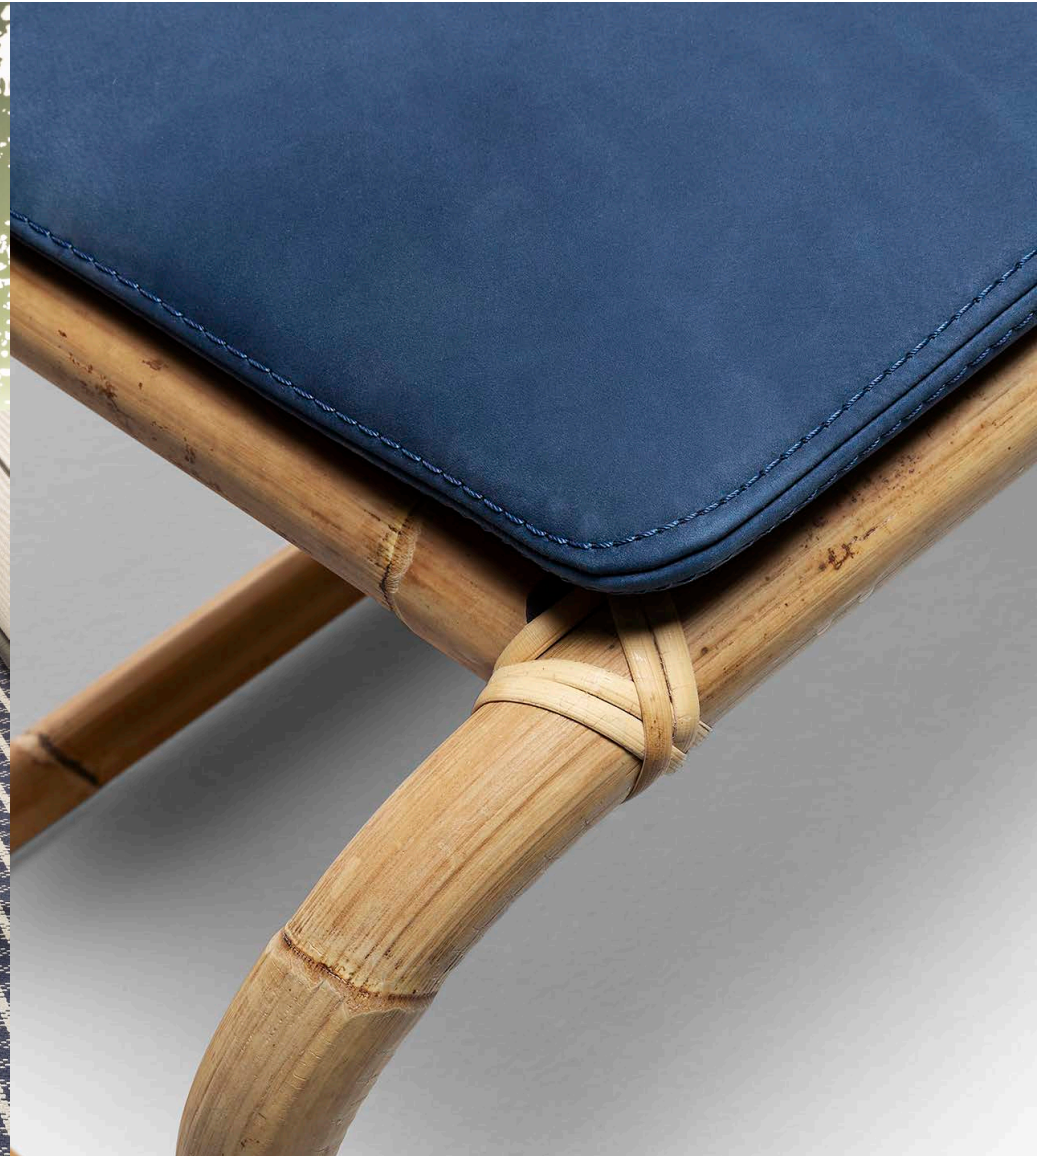

Pure elements are enhanced by the detailed profiles of the curved rush weaves. Jungle Collection is a true work dedicated to nature, a stylish object created to celebrate the landscape and add a touch of liveliness to any setting.

Jungle Armchair Slim High /

Jungle Armchair Large Low /

Pouf Rossiccio

Bewitching character

Pouf Rossiccio represents a true work of craftsmanship.
A refined maze of weaves, with wooden weaves, takes shape
to give life to a piece of extraordinary lightness and dynamism.
Perfect for those who are looking for a versatile furnishing
solution but do not wish to renounce elegance.

TEXTURE HYPNOTIC WEAVES

The wood fibers, woven together,
stimulate a curious and intriguing
tactile experience. The seat is
an agglomeration of concentric
weaves: a full-bodied and
bewitching labyrinth.

MATERIAL POWER OF NATURE

The noble workmanship of Pouf
Rossiccio comes from the careful
selection of materials chosen to
make it. Functionality and resistance
are the watchwords for an element
that encloses the extraordinary
strength and authentic beauty of
nature.

design by Massimo Castagna

Lapi Kitchen

Technological Island

Aesthetics and technology go hand in hand: Lapi Kitchen is the result of futuristic thinking. It reinvents the concept of the outdoor kitchen thanks to large surfaces and the latest generation of materials.

MATERIALS AVANT-GARDEISM

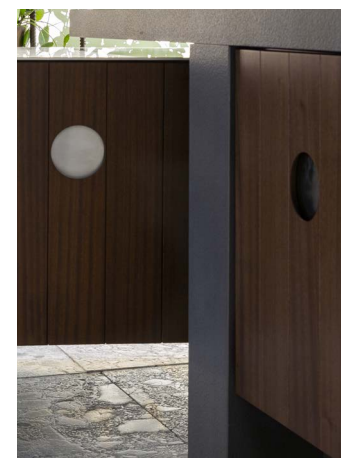

Lapitec® is the technological material studied to implement the heat transmission and make the surface the same cooking surface. The avant-garde choice of Lapi Kitchen's components profiles its dynamic modernity.

AGIO SURFACES

The top, made of Lapitec®, becomes a large and comfortable support surface. The wide choice of accessories, which meets every need in the kitchen, completes the dynamic functionality of Lapi Kitchen.

ITALIAN CRAFTSMANSHIP DOORS

Lapi Kitchen doors are made of Sapelli WoodApp®, the new technology applied by Exteta that incorporates an aluminum honeycomb panel with solid mahogany wood. A worktop with a monolithic presence that offers the possibility to accommodate every space requirement in the kitchen.

Levante Stool

Elegant solution

Levante Stool is a masterpiece of Italian cabinet-making art.

Entirely made of precious Sapelli mahogany, the thickness of the structure is a refined reference to the natural weaving of the trees.

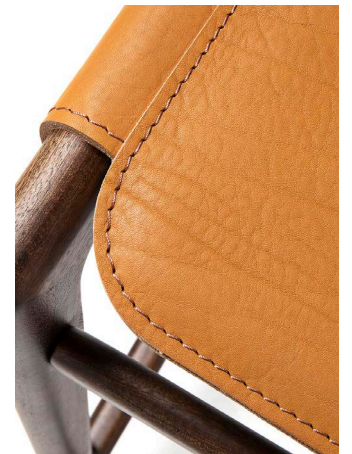

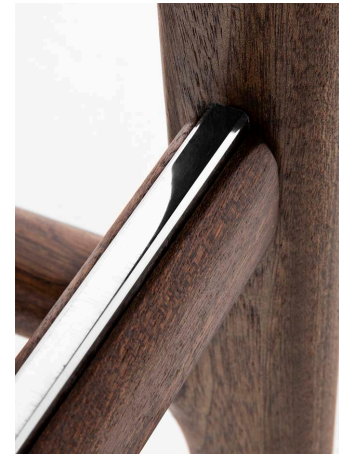

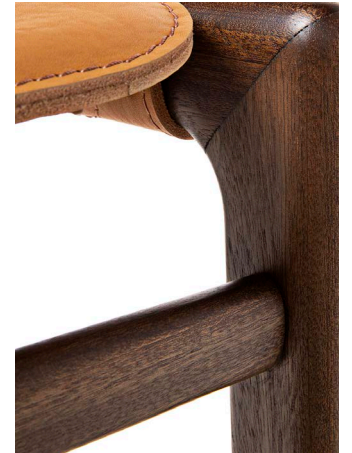

PROFILE LIGHTNESS

The components of the structure, made of carved mahogany, have various thicknesses to give a feeling of extreme lightness. The frame is inspired by the natural beauty of the trees among weaves and harmonies.

GENUINE LEATHER SEAT AND BACKREST

Seat and backrest are made of genuine Saddle leather treated for outdoor use, to guarantee maximum resistance and precious elegance even in all environments.

design by Massimo Castagna

Roller Kitchen

Total freedom

A new concept of kitchen, in motion. The Roller Kitchen embodies the desire for outdoor freedom and informality by making every feature of the kitchen mobile. The Roller Kitchen is available in two modules, 120 and 180 cm. Its lightness and ability to move break from the kitchen's conceptual and aesthetic limits with elegant lines, details, and contrasts between the purity of the steel and the warmth of the wood.

design by Massimo Castagna

Roller Cupboard Dynamism

Roller Kitchen Cupboard rewrites the concept of functionality. Thanks to its dynamism, the cupboard adapts with simple elegance to every living requirement.

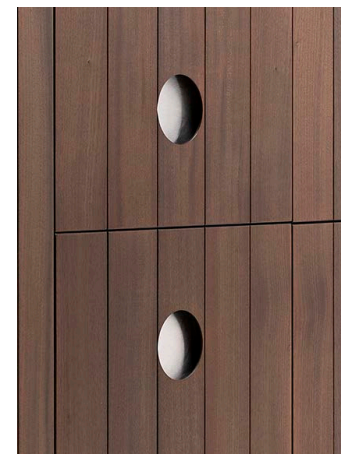

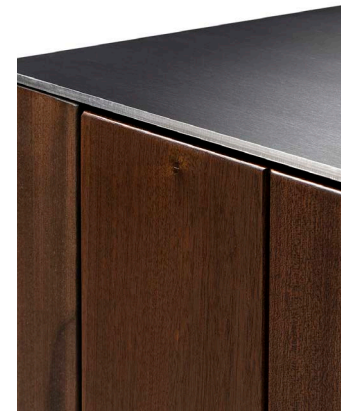

MINIMALISM FINISHES

The precious Sapelli mahogany from which Roller Kitchen Cupboard is made is available in three different finishes: matt Mahogany, Barrique and Lucido Mediterraneo. The stainless steel inserts, as well as the top, give the element

TECHNOLOGY AND CRAFTSMANSHIP DOORS

The doors, made by Sapelli WoodApp®, are the result of Exteta's technological application that combines an aluminum honeycomb panel with solid mahogany wood. The door handle celebrates the ability of master craftsmen to skillfully sand the wood, based on the ergonomic study of the opening gesture.

design by Massimo Castagna

String Pouf

Slight contrasts

A manifesto to the artisan tradition. String Pouf combines the majestic elegance of a Sapelli mahogany structure with the fresh lightness of hand woven rope.

Giotto Table

Majestic presence

With its noble design, Giotto Table echoes timeless classicism.

Its sculptural essence makes this element an iconic
homage to a bygone era.

THOUGHT
CLASSIC REPRIMANDS

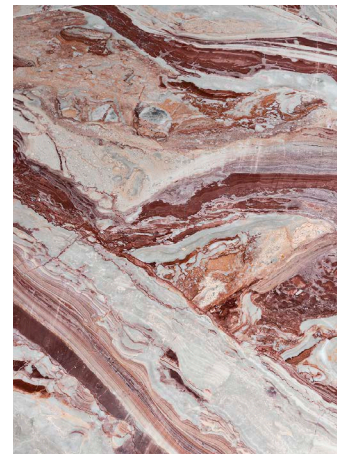

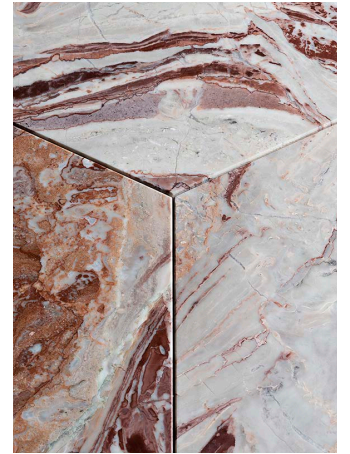

Giotto Table's design is a tribute to sculptural art, reinterpreted with craftsmanship by true marble artists.

POWER
MONUMENTAL

Made entirely of marble, Giotto Table's structure makes use of sinuous contrasts. The wide and tapered circumference with its monolithic and imposing legs, are joined to the top by bevelled geometries.

CROMIE
WHIMSICAL FINISHES

Every element of Giotto Table is carved in marble. Arabescato Orobico Red, Steven Black, Olimpo Striato, Leaf Rust and Ostuni Travertine: the chosen finish gives life to different chromatic games, creating personal furnishing motifs.

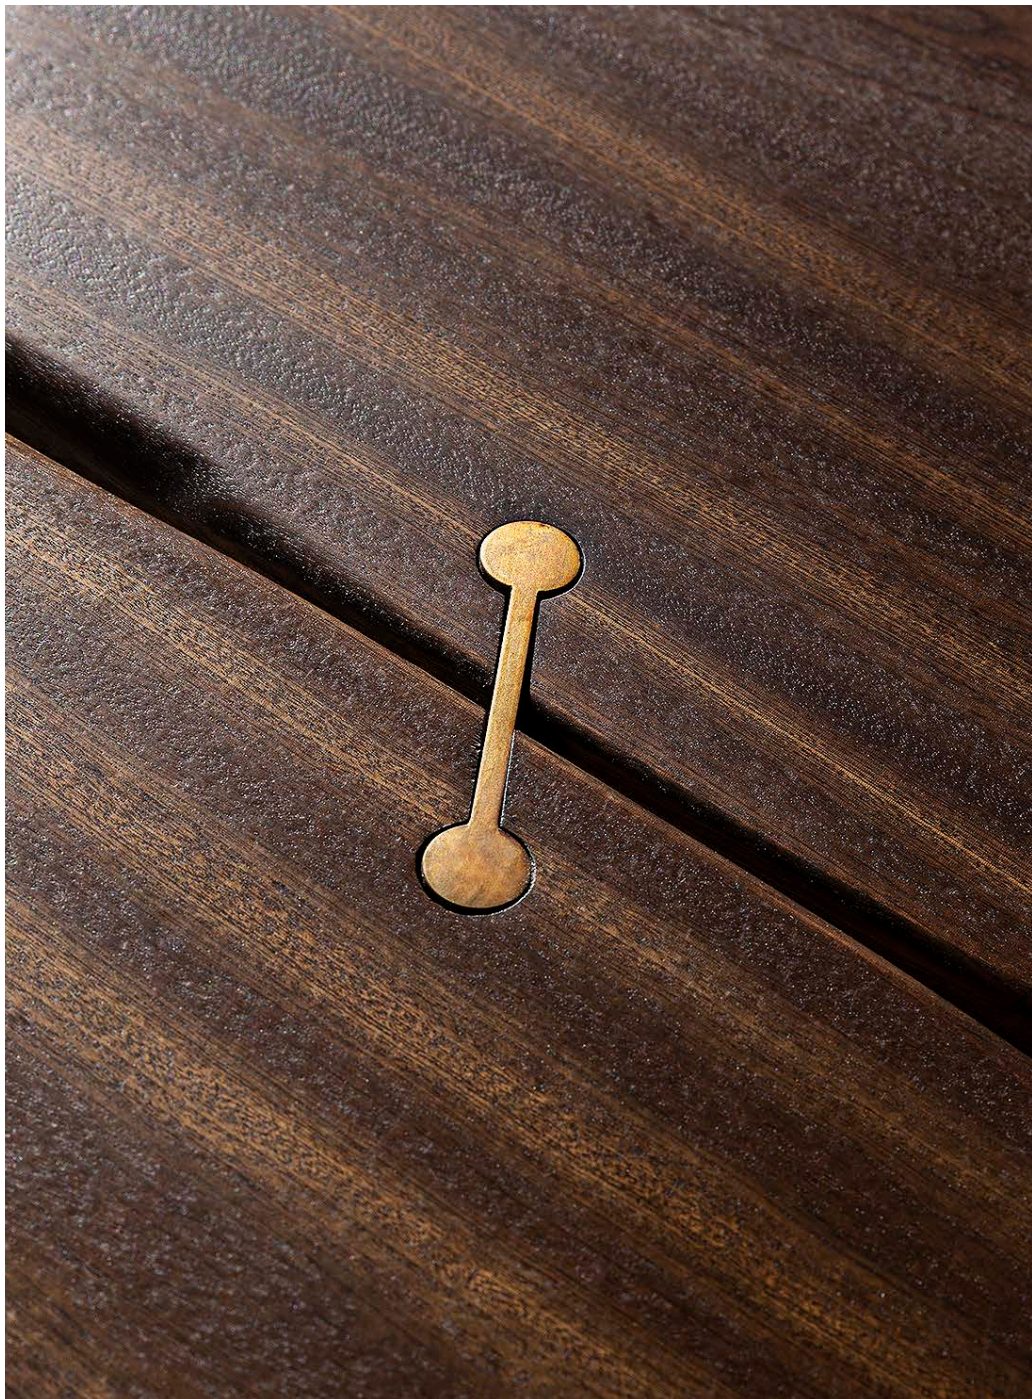

10th Joint Dining Table

Strong impact

The generous geometries of 10th Joint Dining Table define the spaces of the outdoor environment. The bases in burnished brass, with different diameters, follow one another asymmetrically, supporting the powerful table top.

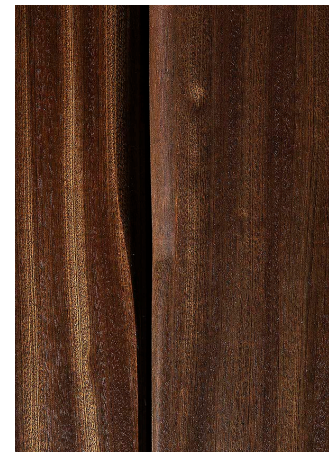

design by Massimo Castagna

JOINTS DETAILS SOUGHT

The top is divided into two sections joined together by burnished brass connectors.

An exclusive detail that gives 10th Joint Dining Table a signature style.

PROFILE NATURAL IMPERFECTION

The perimeter of the top is pleasantly bevelled with a natural imperfection. Made entirely of Sapelli mahogany, 10th Joint Dining Table is as solemn as it is precious.

STRUCTURE MIGHTY GEOMETRIES

10th Joint Dining Table, with its size, imposes its presence in all environments. Available in matt mahogany or Barrique finish, it alone gives the space a distinctive character, furnishing with its presence alone.

Ludovica+Roberto Palomba

From the beating heart of Milan, a captivating sense of design charms the world. In 1994, two architects, Ludovica Serafini and Roberto Palomba, founded Palomba Serafini Associati. Internationally celebrated by the world of architecture, the duo has received many awards and recognitions, including the Compasso d'Oro ADI Award, the Elle Decoration International Design Award, the Red Dot, the Design Plus, the Good Design Award, and the German Design Award. They also coordinate exhibitions and architectural work around the world,

cooperating and managing the art direction for some of the most beloved brands. The label Ludovica + Roberto Palomba collaborates with worldwide design names, such as Antolini, Bisazza, Boffi, Brix, Cappellini, Dornbracht, Driade, Elica, Elmar, Exteta, Fiam, Flaminia, Foscari, KitchenAid, Kos, Laufen, Lema, Plank, Poltrona Frau, Rapsel, Redaelli, Salviati, Sawaya & Moroni, Samsung, Schiffrini, Tubes, Valli&Valli, Viccarbe, When Objects Work, Zanotta, and Zucchetti.

Stone/Round Coffee Table

Echo to classical art

Stone Round Coffee Table is an imaginative and dynamic furnishing solution at the same time. Its contemporary design makes it the perfect solution for a break in luxury and style.

MATERIAL MONO TACTILE

Stone Round Coffee Table is entirely carved in marble. Bardiglio, Bottoncino, Arabescato Orobico and Steven Black are the precious finishes to choose in order to personalize a design piece that transforms it into a style icon.

CROWN SUBTLE TRIMMINGS

The top, framed by a subtle marble detail, circumscribes its profile.

A simple and at the same time refined detail, able to give Stone Round Coffee Table grace and elegance.

design by Ludovica + Roberto Palomba

Michele Marin

The discovery of perfume happens in adolescence when, at the age of thirteen, he was captured by a friend's perfume: "Jardin de bagatelle" by Jean-Paul Guerlain. Since then, his artistic education will develop along the paths of sensorial and olfactory creation.

After University, for fifteen years he immersed himself in the world of Cinema, Theater and Opera, working in the most important Italian theaters as assistant director with master Franco Zeffirelli and director Marco Bellocchio.

From this fund of experience, made of images, notes and accords, harmonies and counterpoints, he discovers again the hidden treasure of perfumes and smells through the theater tours, which bring him to develop his innate olfactory universe.

His curiosity drives him to discover the world of Artistic Perfumery and to get entirely absorbed in the study of fragrances.

He begins a training path in Italy with "Mouillettes & Co" and continues his study

in composition and formulation at "Cinquième Sens" in Paris.

He places side by side a first experience with the brand "Etro" and later on he is given an important assignment as Retail Manager of "Olfattorio-Bar à Parfums" in Florence, enriching his knowledge path as sales trainer as well as in marketing and events planning.

In 2010, with his first triptych of perfumed candles for the prestigious Chianti's wine brand "Castello di Ama", he creates, with simplicity, balance and originality, the structure of some olfactory emotions, later developing a complete home fragrances line.

In 2013 he starts the Olfactory Creation brand "Infraganti Parfumeur" developing collaboration with important realities in the world of fashion, hôtellerie and furniture among which Flair, Gini Fragranze, Stefano Berner, Hotel Villa Cheta Elite and Roy Roger's.

In 2014 the continuous research for new olfactory emotions brings him to the tailored creation of the first fine fragrances.
