From the first ABS table that rolled off the line to customized product collections that perfectly fit a space, MITY Inc. has been creating the products you use for more than 30 years. Our commercial furniture is built to last longer, set up and take down easier, store smaller and look better, which is why we're the industry standard for the markets we serve. As the MITY family of products grows, we're excited to be able to offer you an expanded portfolio of furniture lines with the same quality and personal touch you've come to expect from MityLite, Holsag, XpressPort, and now Bertolini.

Whether you're outfitting a five-star hotel, local church, national restaurant chain or one of the largest conference centers in the world, we're confident our comprehensive offering of banquet and event furniture can efficiently meet your needs. We make it easy for you to order furniture right out of the box, or work with our in-house design resource, M Studios, to help you quickly find and spec the perfect fabric and finishes to complement your facility.

Doing business with MITY feels different. From your first interaction all the way to product delivery—and even years afterward—you can expect unparalleled quality and service. We appreciate your loyalty and confidence in our brand and will continue to work hard to keep your trust. As we grow, you can count on us to deliver an exceptional customer experience and unsurpassed value through our industry-leading products.
