TAVOLO™

MOBILE BUFFET TABLES

Tavolo Mobile Buffet Tables from MityLite are built with durability and linen-less presentation in mind. Unlike other MITY products that were made to be quickly and easily set up and broken down, Tavolo tables are meant to be a semi-permanent feature of a meeting or dining space, and are designed to be proudly displayed and showcased. Tavolo tables are constructed from solid maple or stainless steel frames, available in multiple stain colors, and use premium, scratch-resistant laminate tabletops for a variety of customized looks.

Farm

Country

Traditional

Urban

TAVOLO™ TRADITIONAL

The Traditional's curvilinear legs create a visually compelling design and provide a fresh take on a traditional rolling buffet table. The outer sides of each leg are concave, making it visually lighter. The Traditional's construction exposes its 5" vintage casters, highlighting a popular design trend and adding visual interest.

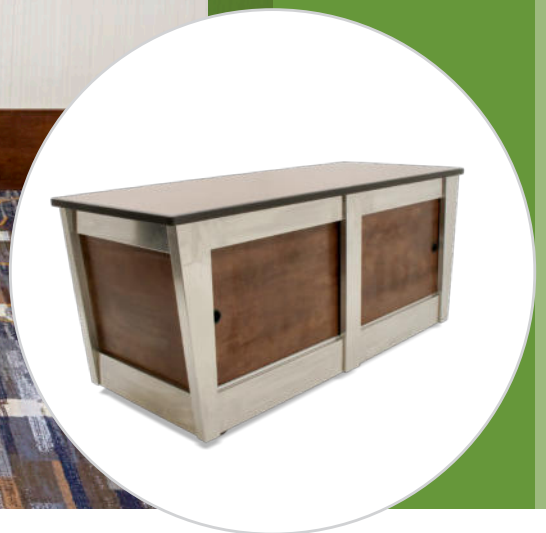

TAVOLO™ COUNTRY

The Country's design features curvilinear legs that freshen and lighten the look while the bottom shelf gives the Country a robust feel. One side of each leg is concave, while the skirting around the shelf has curved cut-outs, both of which help lighten the aesthetic of the lower portion of the table and provide room for a guest's feet as they use the table at an event.

TAVOLO™ FARM

The Farm table features thick sections that give it a sturdy feel without compromising aesthetics. This inclusion, along with the rustic wood finish, create the look and feel of the classic farm table design. The table combines this traditional design with modern efficiency, with multiple shelves built into the frame on both ends. The angled-in end units bring a unique and compelling design element, as well as providing room for your feet as you roll the table.

TAVOLO™ URBAN

The Urban's contemporary design features stainless steel legs that taper in, creating a durable yet elegant look. The Urban's mix of steel and maple accent panels add a sense of refinement and warmth to commercial settings.

ELEVARE™

COLLAPSIBLE BUFFET TABLES

Elevare Collapsible Buffet Tables were created with the same commitment to durability and ease-of-use that goes into all MityLite products. Multiple patent-pending features provide safe and efficient set up and operation. Elevare tables come in two leg styles and three heights. The Tapered Leg features a modern, stainless steel finish, while the Rectangular Leg utilizes vertical accents and is available in a number of powder coats. The tabletops come in round or square, three different edge styles, and a variety of laminate options.

Tapered Leg

Rectangular Leg

ELEVARE™ TAPERED LEG

Elevare Tables with the Tapered Leg style feature bold, pronounced lines that provide durability but maintain a sense of elegance, refinement, and lightness for an eye-catching look and feel. The stainless steel finish gives a modern, upscale look that can function as a stand alone table or in a group.

ELEVARE™ RECTANGULAR LEG

The Rectangular Leg style on the Elevare Collapsible Buffet Table line offers a classic look with more customization options for your banquet space. Available in a number of powder coat finishes, its thin vertical accent tubes create visual interest and elevate the design, while providing the ability to match MityLite Reveal Meeting Room Tables and the design aesthetic of a property.

SEAMLESS EDGE TABLETOP

3D laminate surface bonded and wrapped using high-strength adhesive over 5/8" [16mm] MDF and PVC Edge Band for increased edge durability.

MITY EDGE TABLETOP

Extremely durable cast Polyurethane Knife Edge is chemically bonded to composite core. Commercial-grade High Pressure Decorative Laminate (HPDL) surface bonded to top surface.

MATCHING EDGE TABLETOP

Commercial-grade High Pressure Decorative Laminate (HPDL) surface bonded to 18mm ultra-light plywood core and matching PVC edge band.
